

Investment, Stewardship, Guidance: The Community Foundation of Northeast Iowa delivered strong positive performance in 2024, returning 7.1% for the calendar year. The US equity market continued its march higher, posting a 20%+ return in back-to-back years as the Magnificent Seven stocks led the way. The Foundation continues to benefit from an overweight to US equities over non-US equities, as well as allocations to below investment grade fixed income that tend to outperform when equity markets are strong. The robust Private Equity program continues to provide reliable long-term growth for the Foundation that, as a result, has averaged a 7.5% annualized net of investment manager fees return over the past decade. Overall, the Foundation’s well-diversified portfolio has demonstrated remarkable resiliency across market environments and is well-positioned moving forward into 2025.
